Kanzashi is an ornamental hairpin and its history goes back as far as 3000 years. Among many types of *Kanzashi*, *Edo Tsumami Kanzashi* was developed during the *Edo* period when the technique of *Hana-kanzashi*, worn by apprentice Geisha in Kyoto, was brought over to *Edo* (modern day Tokyo). It is a designated traditional handicraft in Tokyo and Chiba prefecture today. The art is disappearing due to fewer people wearing Kimono. However, it is becoming very popular among non-Japanese incorporating it into Western attire, such as Katy Perry wearing it at the MTV Music Awards ceremony.

In **elementary level 1**, you will work on the very fundamental *Maru-tsumami* (round pinching) after learning the history, types, materials, motifs, artisanship of the *Edo Tsumami Kanzashi* through a lecture. Students who complete Elementary 1 can proceed to the next level following month to learn new techniques & designs based on beautiful nature. You will be able to enjoy make many types of *Edo Tsumami Kanzashi* throughout the year, as the workshop offers the higher level every month.

- * The workshop is for hobby purpose only. By signing up this workshop, you agree not to title yourself as artisan, sell the completed items, and misuse the class materials, especially for business purposes.
- * You may receive the different color materials based on the state of the supply stocks.
